What an exciting time.

Have you noticed our new look? We’re very excited to be unveiling a creative redesign this MIPCOM, one that better aligns with all of the exciting new adventures that Blue Ant Media is undertaking. 2019 has been a banner year for expansion as we’ve continued to grow our channel, production studios and distribution businesses around the world. Recent announcements such as Blue Ant Studios being commissioned to produce ‘Canada’s Drag Race’ and Travel Channel US and our own T+E’s big budget co-production ‘Witches of Salem’ are among some of the marquee titles making their debut.

But so much of our success can be attributed to our growing network of partners. We are grateful to have these opportunities in a competitive market, and we hope to continue to encourage the most creativity in content, business and deal-making. Thank you all, and we hope that you enjoy our new look and our new offering of over 300 new stories across all genres!
The Witches of Salem

THE WITCHES OF SALEM is a docu-drama that unravels the hysteria that unfolded during the Salem witch trials, and led to the execution of 20 women in an affluent New England community. Stories of possession by the devil led to mass arrests, sensational trials and even public hangings in the town square. THE WITCHES OF SALEM is a real-life horror story - with young teenage girls tragically accused and convicted by the shadowy adults lurking in the background. The series draws on extensive historical documents and court records to bring this gripping drama to life. Sociologists, psychologists, and cultural historians also illustrate how communities are still susceptible to the same hysteria today.
